SUMMARY

- Over 7 years of experience in data collection, analysis and root cause identification, and data-driven decision-making
- Advanced skills in Excel, Power BI (DAX, Power Query/M), MySQL, and Python with AI-enabled capabilities
- Interested in fast-paced companies focusing on improving performance and streamlining process

WORK EXPERIENCE

Data Analyst, StarTech.com, Ontario, Canada **04/2022 - 03/2025**

- Conducted **exploratory data analysis** and developed reports using Power BI, Excel (Pivot) to meet business needs.
- Leveraged AI to design and implement a **VBA automation tool** in **Excel** for role mapping, reducing processing time by **99.38%** from 40 hours of manual filtering to just 15 minutes for 26,000 job titles.
- Built comprehensive Power BI **revenue dashboards** for weekly executive meetings, highlighting key regional performance drivers enabling quick decision-making.
- Involved in **PO workflows** and forecasted safety stock to optimize in-stock SKUs using LT and demand analysis.
- Developed **ad-hoc reports** and dashboards providing actionable insights for the Amazon team.

Data Design Analyst, Accenture, Singapore (onsite at Facebook) **12/2017 - 10/2021**

Workforce Management Analyst **11/2020 - 09/2021**

- Visualized data trends and patterns using Excel (PivotTable, Dashboards) for strategic decision-making.
- Developed data-driven monthly **staffing plans** to optimize resource allocation and mitigate potential losses.
- Led daily stand-up meetings using Tableau analytics to ensure **100% SLA** compliance.
- Collaborated with cross-functional teams to provide workforce analytics and enhance global coordination.

Technical Platform Analyst **04/2019 - 12/2020**

- Provided technical support for UX/UI and **application issues** related to risk and payment platforms.
- Diagnosed and expedited issue resolution and reducing average fix time by **14 hours (40%)**.
- Collaborated daily with cross-functional teams in Dublin and Austin to share insights and maintain global alignment.

Risk and Payment Analyst **12/2017 - 12/2019**

- Resolved complex issues in **online payment** and **billing systems**, achieving a Customer Satisfaction Score of **93/100**.
- Consistently maintained **100% performance** in alignment with client SLA.
- Investigated and mitigated fraudulent activities and risk patterns to the prevention of financial losses.
- Honored with the Best Performance Award and Certificate of Excellence for outstanding contributions.

System Analyst, Tesla Consulting Pte Ltd, Singapore **06/2017 - 12/2017**

- Created comprehensive test scripts and cases to validate software functionality using MySQL and Excel.
- Executed manual testing procedures and performed troubleshooting to ensure system reliability and performance.
- Successfully led end-user training sessions on **UAT** phase and delivered a smooth go-live within a 3-month timeline.

SKILLS

- **Tech stack:** Power BI, Excel (PivotTable, Dashboards, VBA), MySQL, Python, HTML/CSS, Jira, Google Analytics
- **Data analysis:** Data cleaning and quality assurance, visualizing and reporting, produce actionable insights
- **Collaboration:** Teamwork, active listening and translating feedback into action, user-centric thinking
- **Organization:** Critical thinking, communicating insights, excellent time management and attention to detail
