SUMMARY

Results-oriented data analyst and PL-300 certified Power BI professional with 7+ years of experience in data collection, analysis and root cause identification across diverse teams and regions. Recognized for a consistently positive attitude, strong accountability, productivity, and solution-focused mindset. Highly adaptable and successful in both independent and collaborative work settings. Equipped with advanced expertise in Excel, Power BI (DAX & Power Query/M), and growing capabilities in MySQL and Python, including AI-enabled analytics.

SKILLS

Tech stack: Power BI • Excel (PivotTable, Dashboards, VBA) • MySQL • HTML/CSS (project: portfolio site)

Data analysis: Data cleaning & quality assurance • Dashboard & report development • Root cause analysis • KPI Tracking

Collaboration: Teamwork • Active listening • Empathy • Translating feedback into action • User-centric thinking

Organization: Critical thinking • Excellent time management • Attention to detail • Storytelling

WORK EXPERIENCE

Data Analyst | StarTech.com, Ontario, Canada

04/2022 - 03/2025

- Conducted exploratory revenue data analysis and developed reports using Power BI, Excel to identify cost saving, key products driven, and competitive advantage opportunities to boost product sales volume and annual profitability.
- Leveraged AI to design and implement a VBA automation tool in Excel for role mapping, reducing processing time by 99.38% from 40 hours of manual filtering to just 15 minutes for 26,000 job titles.
- Built comprehensive Power BI revenue dashboards for weekly executive meetings, highlighting key regional performance drivers enabling quick decision-making regarding +3,700 products selling to 80+ countries within 4 regions.
- Supported Purchase Order workflows and forecasted safety stock to optimize in-stock SKUs using lead-time and demand analysis, applying advanced Excel and data-quality validation skills.
- Developed ad-hoc inventory and category reports and dashboards providing actionable insights for internal Amazon-facing team, applying data validation to ensure reporting accuracy.

Data Design Analyst | Accenture, Singapore (onsite at Facebook)

12/2017 - 10/2021

Workforce Management Analyst

11/2020 - 09/2021

- Visualized headcount data trends and patterns using Excel (PivotTable, Dashboards) for strategic decision-making to mitigate staffing season fluctuations and develop future employment productivity game plan.
- Led daily stand-up meetings with team leads across Austin and Dublin to collect and manage end-to-end roster tracking, including new-hire/exit updates, and non-productive training time (NPT) to maintain data accuracy in capacity and staffing.
- Developed data-driven monthly staffing plans to optimize resource allocation and prevent potential financial losses for client.
- Collaborated with cross-functional teams using Tableau analytics to provide workforce analytics and ensure KPIs.

Technical Platform Analyst

04/2019 - 12/2020

- Provided technical support for UX/UI and application issues related to risk and payment platforms.
- Diagnosed and expedited issue resolution and reducing average fix time by 14 hours (40%).
- Collaborated daily with cross-functional teams in Dublin and Austin to share insights and maintain global alignment.

Risk and Payment Analyst

12/2017 - 12/2019

- Resolved complex issues in online payment and billing systems, achieving a Customer Satisfaction Score of 93/100.
- Identified and mitigated fraud patterns with 100% Service Level Agreement (SLA) compliance.
- Honored with the Best Performance Award and Certificate of Excellence for outstanding contributions.

System Analyst | Tesla Consulting Pte Ltd, Singapore

06/2017 - 12/2017

- Created comprehensive test scripts and cases to validate software functionality using MySQL and Excel.
- Executed manual testing procedures and performed troubleshooting to ensure system reliability and performance.
- Successfully led end-user training sessions on UAT phase and delivered a smooth go-live within a 3-month timeline.
